Name anything that you would change or add to improve this presentation:

It was excellent. I learned so much. The trainers were fun and made the training interesting.

This session was very informative. It is great to have a resource to go to for questions. I would love more complex activities.

This training made me confident to advise clients and/or refer them to Work Without Limits. I am going to encourage clients to meet with benefits counselors.

All people dealing with SSI/SSDI should be required to take this course. This is a lot of information. Resources to access are hugely helpful.

I would like a longer program to practice the financial part of the session. Perhaps making it a 3 day training.

The PowerPoint presentation, examples and activities provided a clearer and more hands-on approach. Add information on how citizenship affects benefits.
