

THE PROBLEM

- **Employers** are looking for new ways to mitigate the recruitment challenges they are facing in an incredibly competitive talent market with a 3.9% unemployment rate
- **College students with disabilities** have difficulty securing employment in their chosen field after graduation and oftentimes earn less than their non-disabled peers.

THE SOLUTION: CAMPUS TO CAREERS

- **Campus to Careers**, an innovative new program, seeks to connect talented college students and recent grads with disabilities to top employers in the greater Boston area
- Students with disabilities can gain access to **internship and employment opportunities** with top companies, including:

- Receive training in sought-after **work readiness skills** through exclusive events online, on-campus and with employers
- Connect with peer mentors and professional mentors online through our Campus to Career portal hosted by Partners for Youth with Disabilities.
