COMMENTS

What other disability-related information could you benefit from learning about?

Changes that come up from laws, updates, etc.

More in-depth information about ABLE accounts, Ticket to Work Employment Networks and housing.

What did you like best about the training?

Brian is the ultimate enthusiastic knowledgeable lecturer with a great sense of humor!! I also really liked the pre and post assessment, it's a great learning tool.

The SSI and SSDI portion is the most pertinent information to my clients.

Brian was a great presenter. He was animated, held my interest throughout the presentations, clear, well versed in all topics covered, answered any and all questions.

Brian made a dry subject engaging. The excel spreadsheet is such a great resource too.

What did you like least about the training?

The material on the third day seemed more comprehensive and more difficult to absorb. I would have liked more of the problems and group work incorporated.

What could we have done better?

Space it out. Less lectures. More engagement.

What were the key takeaways from this session?

Better off working!!!

That people can work and not lose benefits.

Report everything!

Genius idea to put SSDI into a PASS account in order to qualify for SSI.

Still may qualify for a full or partial SSP payment if earnings are too high in a month to get an SSI cash benefit.

Any additional feedback?

This training was beyond helpful and having the PowerPoint, plus my notes, for reference is very beneficial.
